BACKEND

As a backend developer, I specialize in creating RESTful APIs to facilitate communication between the frontend and backend. In addition to implementing CRUD (Create, Read, Update, Delete) operations, I prioritize error handling to ensure robustness and reliability in my APIs.

FRONTEND

Skilled React.js Frontend Developer specializing in crafting high-performance, user-centric responsive and single-page web applications with a focus on clean code, component-driven architecture, and seamless user experiences.

SKILLS

- WebSocket
- RESTful API
- JavaScript
- React js
- Typescript

- Java (intermediate)
- Node js
- GitHub
- redux toolkit

- Mongo db
- Express js
- DSA (intermediate)
- AWS

PROJECTS

- **VARSNA** • Live

    An Affiliate marketing e-commerce site with all the features a real site must have like complete authentication with email by **otp verification** or by **Google** even forget password and create multiple user with single email, Razorpay **payment integration**, cart, smart product suggestions and add reviews with pic and much more

- **AirClip** • **Github** • Live

    Developed a full-stack MERN (TypeScript) and WebSocket application for real-time, cross-platform (web, mobile, desktop) clipboard synchronization and team collaboration. Every copy action on one device automatically appears on other device, creating a seamless, real-time connection.

- **PlanMySky** • **Github** • Live

    An chat app in which use can communicate with other people at the same time after google authentication and all the chats we are saving in database created by MERN, WebSocket, passport js for google authentication, React js

---

EDUCATION & CERTIFICATIONS

Higher Secondary
college- R.B.M inter college

Graduation
B.Tech (computer science)

Full-stack development certificate
Certified by Apna college.

EXPRRIENCE

As a Full Stack Developer, my journey has been fueled by 1 year of continuous web development, marked by the creation of several projects. Eager to translate my passion into impactful contributions.
